The Nature of Yosemite

A Visual Journey

Robb Hirsch

Foreword by John Muir Laws

Whether venturing deep into the wilderness or simply taking a few steps off a park road, photographer Robb Hirsch, a scientist by training, always brings back a captivating picture—and the story behind it. The ongoing search for the “Wow!” is his passion, and that passion comes through in each of his photographs.

From his years of exploring, guiding, and studying the Sierra Nevada, Robb knows that understanding the natural processes underlying Yosemite can enhance one’s connection to the landscape. This book provides that enriching experience by pairing Robb’s photographs with insightful essays by the following Sierra luminaries in order to draw readers into a deeper relationship with their favorite national park:

John Muir Laws, *On Wonder, Beauty, and Nature*

Greg Stock, *on geology*

Tim Palmer, *on rivers*

James McGrew, *on the role of art in Yosemite*

Brock Dolman, *on the water cycle*

Sarah Stock, *on bird diversity*

Rob Grasso, *on the Yosemite toad*

Kurt Menning, *on fire ecology*

Dan Webster, *on wildflowers*

Karen Amstutz, *on Tuolumne Meadows*

Nathan Stephenson, *on giant sequoias*

Adonia Ripple, *on the importance of Yosemite*

Pete Devine, *on the remarkable properties of leaves*

The result is a breathtaking book that will dazzle, enlighten, and inspire a deep appreciation for the nature of Yosemite.

The Daring Adventures of John Muir

Julie Bertagna

Illustrated by William Goldsmith

The exciting life story of John Muir—who sailed to America as a boy and ended up changing the world—told for the first time as a graphic novel.

John Muir led an adventurous life, starting with his wild and playful boyhood in Scotland to his legendary exploits in America, where he became an inventor, a global explorer, and the first modern environmentalist—and even made friends with a president! His heart was always in the outdoors and he aimed to experience all he could. Most importantly, though, John Muir told the world about the wonders of nature. His words made a difference and inspired people in many countries to start protecting planet Earth—and they still do.
