## YOSEMITE CONSERVANCY

*A Century of Conservation*

For more than 100 years, Yosemite Conservancy has been supporting the conservation of Yosemite's natural resources and helping people develop deep ties to the park.

Thanks to generous donors, in recent years, we have provided more than \$162 million in grants to Yosemite for more than 850 projects, and more than \$200 million in overall support in the past decade alone, including securing matching funds for major projects and in-kind donations of staffing, services, and park-based programming. In 2024, we are providing \$18 million in total support and funding around 60 new grants to the National Park Service for projects in the park.

The Conservancy's guided adventures and art classes, volunteer opportunities, wilderness services, and bookstores help people from across the country and world connect with Yosemite.

## Granite Dreams: Yosemite Note Cards

**Rhiannon Klee**

Climbing and painting are inseparable in these sublime, surreal views of Yosemite icons presented as elegant boxed note cards.

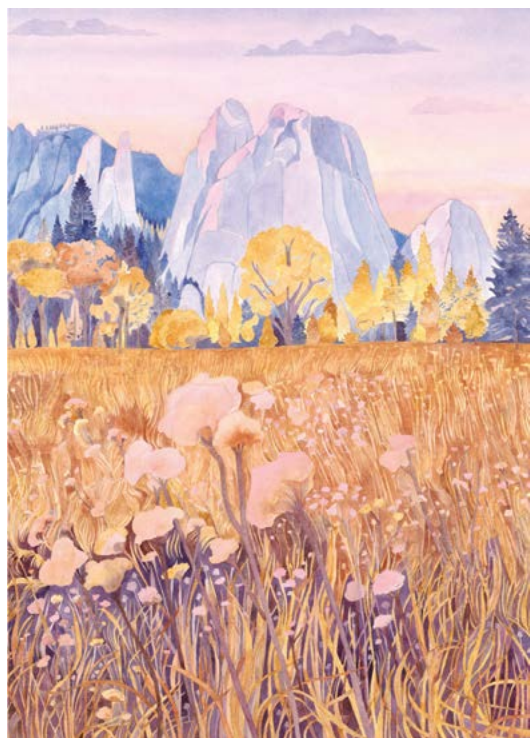

For artist and climber Rhiannon Klee, rock climbing is a creative and emotional experience, and painting is how she gives voice to that experience. Each Yosemite image is framed from the perspective of the viewer, standing where others have stood to admire the massive features in a collective experience of awe. Whether you have touched the granite of any of these icons or simply dreamed of doing so, these cards are a reminder of beauty and wonder.

This boxed note card set includes 10 blank note cards of 5 designs, featuring Half Dome, El Capitan, Clouds Rest, Tunnel View, and Cathedral Spires and Rocks with El Capitan Meadow.

### Yosemite 2025 Calendar

Robb Hirsch

Yosemite's ethereal beauty is on display in this striking wall calendar.

Photographer Robb Hirsch captures Nature's elements against a jaw-dropping backdrop: granite monoliths wrapped in mist, famous falls tumbling earthward, giant sequoias reaching high into the air. Each month is enriched by these large-format, full-color images of landscape wonders, both world-renowned and lesser known:

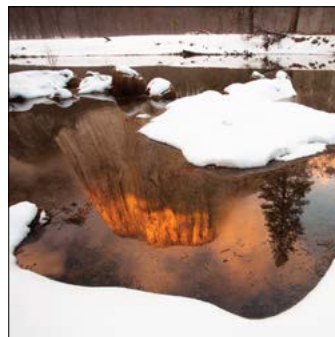

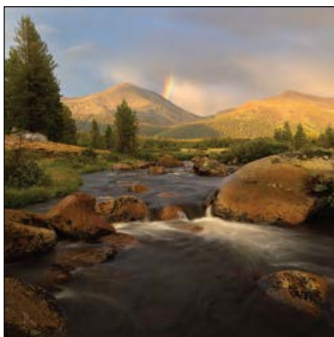

- Lower Cathedral Rock and the Gunsight
- El Capitan Reflected in the Merced River
- Storm Clearing over Half Dome
- Yosemite Falls and Spring Flood
- Bridalveil Fall
- Yosemite Valley
- Rainbow over Mount Dana and Mount Gibbs
- Matthes Crest
- Mount Conness and Lower Young Lake
- Mariposa Grove of Giant Sequoias
- El Capitan and the Merced River
- Half Dome from Glacier Point

This is a calendar to be enjoyed all year—and one which helps support one of the crown jewels of the U.S. national park system.

## Tasha's Voice

**Carmen Bogan**

**Illustrated by Floyd Cooper & Daria Peoples**

In this companion to the ground-breaking *Where's Rodney?*, a Black girl finds connection on a day out in nature.

Tasha is a girl who has trouble using her voice to speak in school or to even make a friend. Then her class visits a park, the best park ever. With the help of an encouraging park ranger, an understanding teacher, some new companions, and a tiny turtle, Tasha finds her voice.

This story takes place on the same class trip featured in Carmen Bogan's and Floyd Cooper's *Where's Rodney?*, once more showing the power of nature to transform a child.

Beloved illustrator Floyd Cooper began the illustrations for this book; his mentee Daria Peoples finished them. In the back of the book, readers will learn how the book was completed following Cooper's passing in 2021 and will find two of his original sketches.

## Wild Sierra Nevada: A Family Nature Guide

Joanna Howes, Alexandra Bailey

“A perfect introduction to the wonders of nature.” —John Muir Laws, author of *The Laws Field Guide to the Sierra Nevada*

Take a walk in the mountains with this beautiful companion for outdoor adventures. If you'll be exploring the Sierra Nevada range with children, bring along this slender, illustrated book featuring commonly found natural wonders in their mountain habitat.

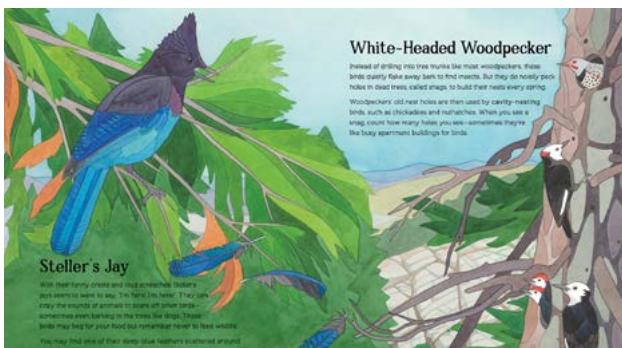

This highly visual, place-based natural history weaves together simple identification keys and whimsical, factual insights, clearly organized by trees, wildflowers, shrubs, mammals, and birds. Written by a Montessori teacher expressly to foster observation skills and a love of nature in young children, this book provides a depth of information and full-color watercolors that will engage the whole family.

CHILDREN'S

## Antsy Ansel

Cindy Jensen-Elliott

Illustrated by Christy Hale

“Through the words and illustrations, ANTSY ANSEL has captured both the appearance of my father as a child and his spirit. The book is absolutely delightful!” —ANNE ADAMS HELMS, daughter of Ansel Adams

Ansel Adams just couldn't sit still. He felt trapped indoors and never walked anywhere—he ran. Even when he sat, his feet danced. But in nature, Ansel felt right at home. He fell in love with the gusting gales of the Golden Gate, the icy white of Yosemite Valley, and countless other remarkable natural sights in the national parks and beyond.

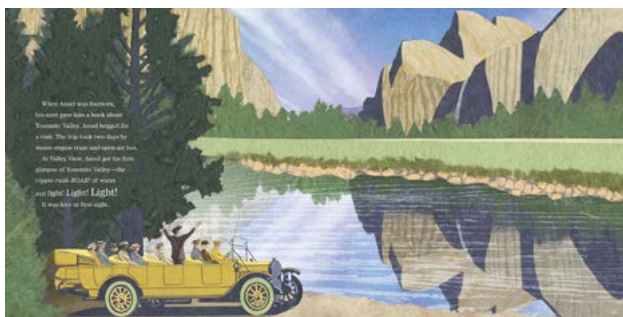

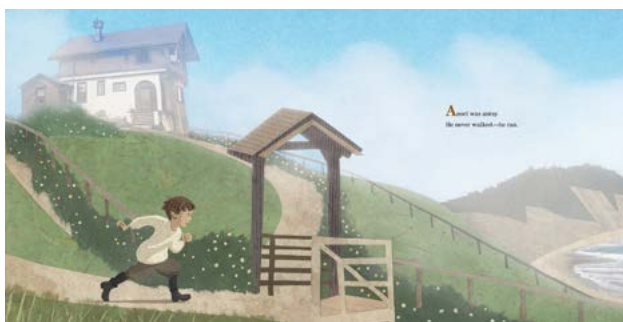

When Ansel grew up, he created the iconic black-and-white nature photographs known around the world. From his early days in San Francisco to the height of his glory nationwide, this acclaimed picture book chronicles a restless boy's path to becoming the artist behind the images.
