Providing For Yosemite's Future

YOSEMITE CONSERVANCY OUTDOOR ADVENTURES

SUGGESTED GEAR LIST

WHAT TO WEAR

Dress for mountain conditions, which means it could be stormy or warm, or both. The program continues rain or shine, so come prepared for any weather with layered clothing and waterproof outerwear, as well as sturdy footwear. Do not wear cotton. If it looks to be a cold or wet day, remember a warm hat, gloves and consider extra socks! Sun protection will be very important if it's clear. It can get very warm while traveling, and cool when not. You will want to be able to shed layers. Be sure to check the weather before you come to be sure you are fully prepared.

EQUIPMENT & GEAR TO BRING

- Daypack with lunch and water for the whole day-at least 2 liters
- Sunscreen, sun hat, and sunglasses
- Rain gear and bug spray
- Waterproof shoes/boots
- Restrooms-there will be some locations with bathrooms but not everywhere. When there are no restrooms you will be using the woods. All trash must be packed out; bring a plastic bag for this.

John strongly suggests a large wash brush such as Silver Black Velvet Jumbo wash brush round and a smaller round nylon brush.

See his materials list on his website <https://www.johnhewittart.com/materials>
